Bi-annual Ranking

How we do it

- We survey alumni at about 40-50 schools regarding their pre- and post-M.B.A. compensation, career choice and location.
- We hear back from 30% of those graduates. Schools where we did not hear back from at least 15% of their alumni were not included in the rankings.
- We also do not include schools where alumni had a negative ROI after five years.
- We rand 15 Full-time and Part-time MBA program respectively
